Position:

**Regenerative Agriculture Assistant**

Potential Duties/Scope:

The Centre for Sustainable Food Systems (CSFS) at the UBC farm delivers a program called the “UBC Practicum in Sustainable Agriculture”. In collaboration with the Education Manager at CSFS this placement is designed as a research position specific to North American agricultural practicum programs. The student will help develop and undertake sectoral analysis of in-person and virtual ag programs in an effort to help situate and improve the UBC experience in this sector. This position is slated to be office work primarily and much can be undertaken remotely.

Duration:

3 months at 9 hours per week

Location:

Centre for Sustainable Food Systems (CSFS) UBC Farm, 3461 Ross Drive, Vancouver, BC, Canada

Located on unceded Musqueam territory, the Centre for Sustainable Food Systems (CSFS) at UBC Farm is a unique research center that aims to understand and fundamentally transform local and global food systems towards a more sustainable, food secure future. The CSFS at UBC Farm is a living laboratory committed to finding solutions to both local and global challenges facing food systems sustainability and translating solutions to improve personal, community, and environmental health.

(note: current placements are primarily remote for reasons of COVID-19 safety)

Learning Objectives:

Collaborative and focused data gathering combining team and individual work time, co-development of strategies and analysis tool for institutional “farm school” assessments, develop and hone ability to distill and synthesis information concisely as a piece to a larger program development puzzle.

Supervisor:

Camil Dumont, Education Manager, CSFS
